DETAILED ACTION

Response to Arguments

1. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Davis et al. (6,074,413) in view of Bruckner et al. (5,695,520). Davis et al. disclose a wrap for treating back pain including all the limitations as claimed except for a presence of a rigid nodule as claimed. Bruckner et al. disclose a wrap for treating pain including a nodule as claimed for applying pressure to treat pain. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to employ a nodule in view of Bruckner et al. into Davis et al.'s wrap in order to apply pressure and further treat the pain.
4. Claims 1-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bruckner et al. '520 in view of Davis et al. '413. Bruckner et al. disclose a wrap for treating pain having a rigid nodule as claimed except for a presence of medicament as claimed. Davis et al. disclose a wrap including medicament as claimed for treating pain (col. 19, lines 1-15). Therefore, it would have been obvious to one having ordinary skill

in the art at the time the invention was made to employ medicament in view of Davis et al. into Bruckner et al.'s wrap in order to further treat pain.
